

NATURAL STONE

COMPANY PROFILE

# TRADITION SINCE 1878

BATEIG company is a family owned business and is one of the leading companies in the natural stone industry.

Since 1981 the company has been managed by Mr. Francisco Castelló who has converted a traditional local stone into a popular architectural material well known by the international industry.

Almudena Boyer

As exclusive quarry owners BATEIG can guarantee the supply of a high quality productcontrolling the process from the extraction to the supply of the finished product.

# QUARRY

# FACTORY

Modern production facilities, latest technologies in machinery and skilled labor are the pillars of our success.

We strive to offer customers a professional and quick assistance according to the projects' requirements.

# EXPORT

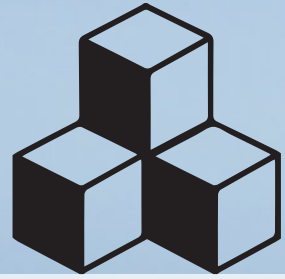

Our exclusive quarry covers an area of more than 1.000.000 sqm and blocks reach our factory pre-selected.

BATEIG have a strong commitment with nature. Our materials are being extracted mechanically and we do not use any explosives. All mining activities are regularized by environmental laws.

Nowadays our capacity of extraction exceeds 3.000 cbm per month. The mild climate in Alicante allows us to extract 12 month a year.

We understand that deadlines are vital for a successful completion of projects and our customers can rely on timely supply without interruptions.

## Machinery:

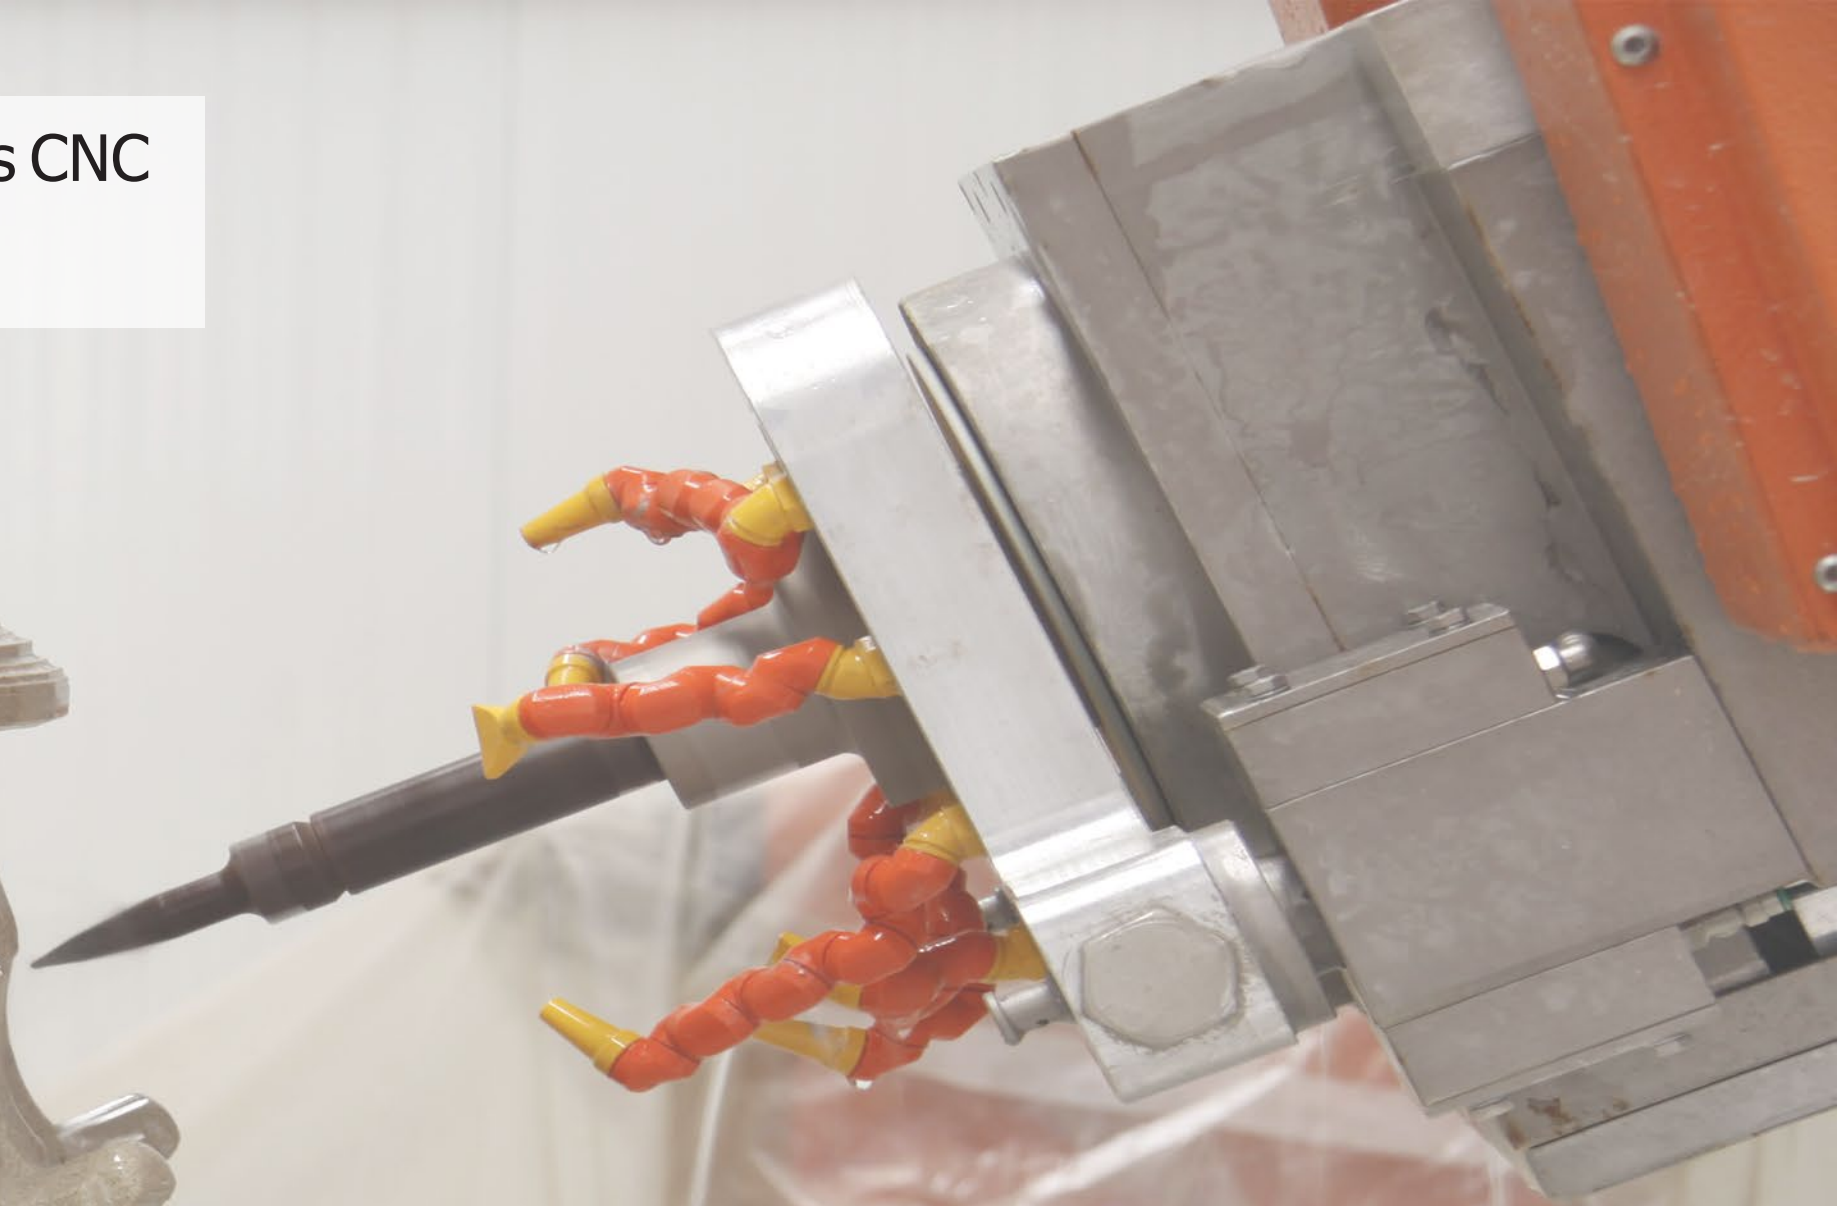

- 4 Block cutters
- 3 Diamond wires
- 6 CNC machines
- 5 Gangsaws
- 5 Bridge cutters
- 15 bridge cranes

In addition we have polishing lines for slabs and tiles, edge finishing machines, beveling machine, balustrade machine, manual discs, slabs finishing lines, sealing line, parallel double disk machine, automatic drilling machine and other manual machines.

Among our innovative and modern equipment two 6-axes CNC machines are able to produce any 3D designs.

The factory works with a water recycling system to develop a sustainable ecosystem.

Monthly production capacity:  
30.000 sqm
